INVOLVE | INFLUENCE

The Mutual of America Foundation gives out awards each year to not-for-profits that have forged a creative partnership with public, private or social sector leaders, working together to solve problems in their communities. To mark the tenth anniversary of this program, we produced and incorporated photographic images that emotionally represented the individual missions of each not-for-profit. The result was a brochure and letterhead along with a folder packaging system that contained two DVDs, all demonstrating Mutual of America's support for these important initiatives.
